FRONT HEMLINE

BACK HEMLINE

A diagram showing a trapezoidal shape within a rectangular frame. The shape is defined by a vertical left edge, a shorter vertical right edge, a top horizontal edge, and a bottom horizontal edge. A diagonal line runs from the top-left corner to the bottom-right corner. A curved line is drawn near the bottom edge, slightly above it. Two grey circular labels are present: 'F' is at the top center, and 'G' is on the left side, partially overlapping the left edge of the shape.
